## P R E F A C E

THE present volume of the Bibliography will be the last, it is hoped, to appear two years after the period it surveys. The fourth volume—dealing with the publications of the year 1938—is to be published towards the end of 1939.

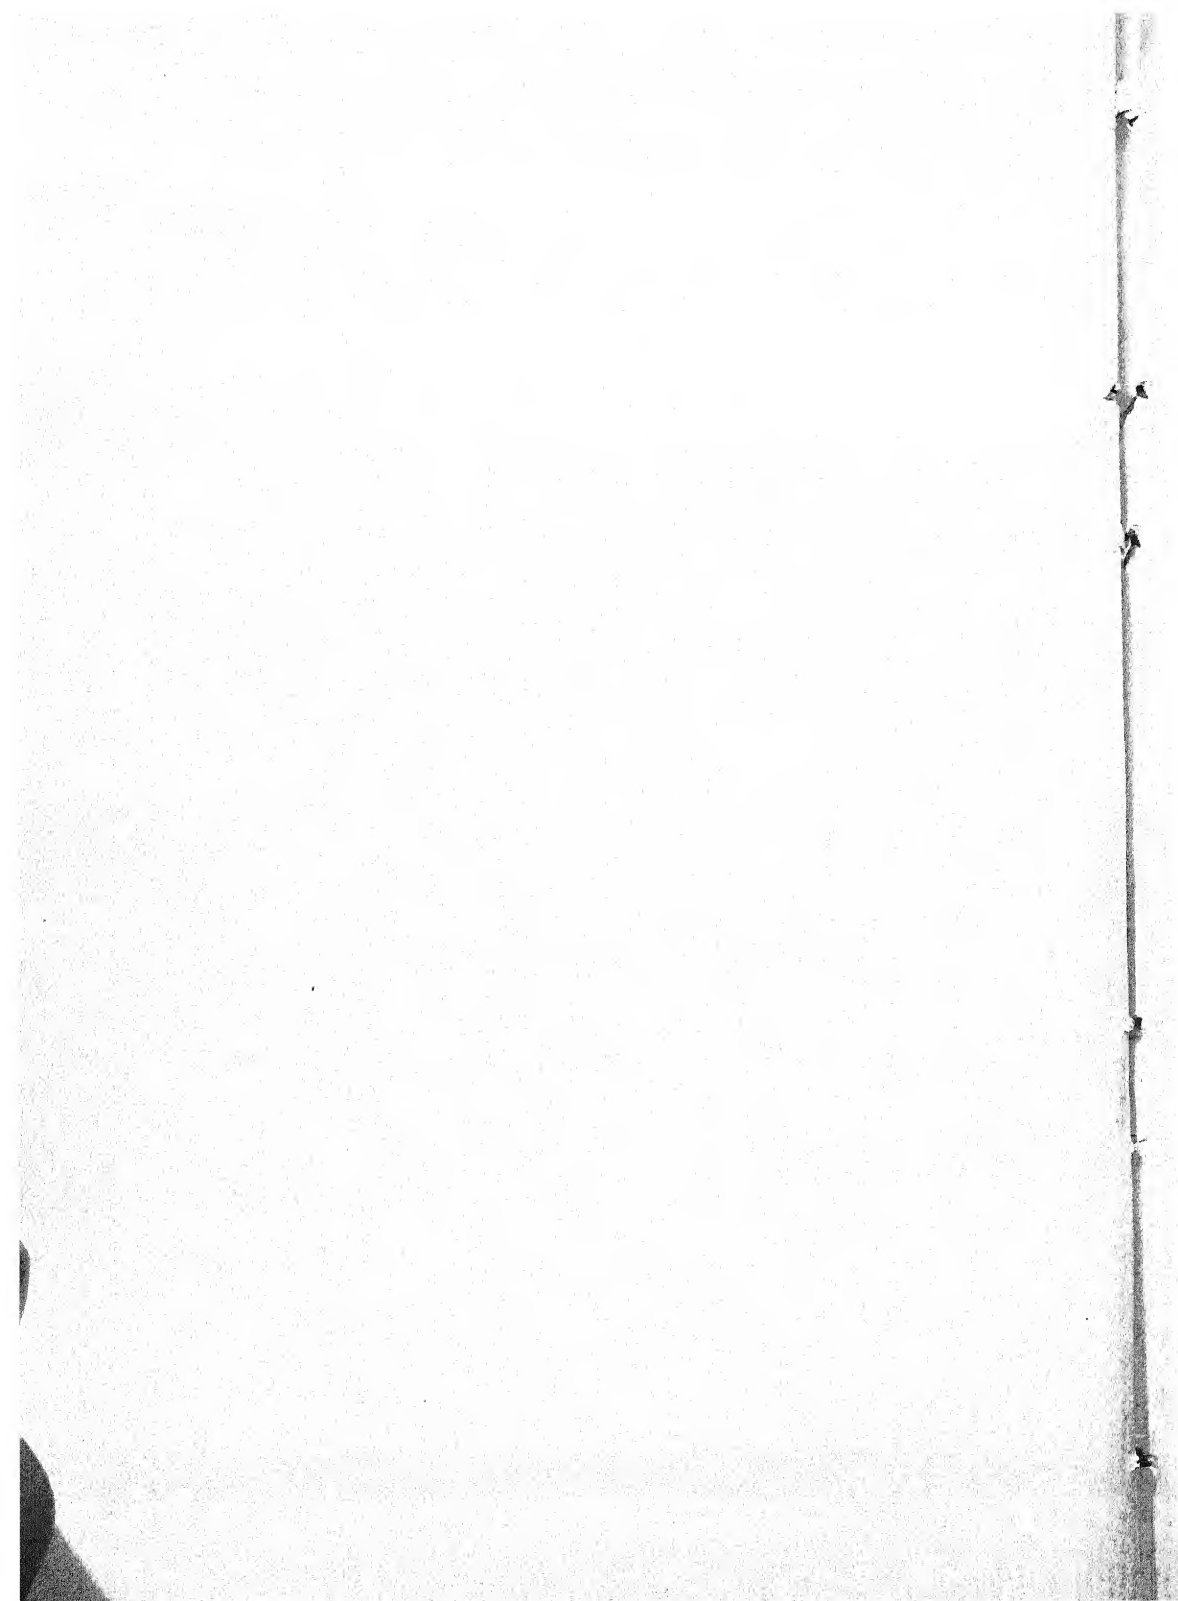

As on previous occasions I wish to place on record my grateful appreciation of the valuable material received from various Government Departments in Ankara, Istanbul and Teheran.

My thanks, also, go out to the constantly increasing number of authors, editors and publishers who have sent me their material, without waiting for any special appeal to that effect. Nevertheless, there are still some gaps, and it is to fill these that I renew my appeal.

I sincerely thank Dr. S. Reich, who, apart from contributing his share of titles, gave considerable help in checking the material collected and in taking upon himself a great deal of the administrative work.
